

FESTIVE UPDO

FEATURING KAT TANITA, FASHION BLOGGER OF
"WITH LOVE FROM KAT"

Celebrate the season with hair and flair! Our style star shows you how to create this special look in minutes, with a trio of favorite products. Read on for the simple step-by-steps...

01. Brush your hair into a high ponytail that sits right above the crown of your head.

02. Secure with an elastic band wrapping it around fully twice and at the third wrap pull hair through only a third of the way leaving ends of hair sitting on top and in front of the ponytail.

03. Divide the remaining hair into 3 sections.

04. Taking the outside right section, pinch the end of the hair and slide a large bobby pin halfway through.

05. Over direct the section to the opposite side of the bun and fasten the section behind and into the elastic band. Repeat the same steps with the outside left section over directing it to the opposite side.

06. Spray the final middle section, pinching and secure the end with a large bobby bringing the section up and tucking it down the middle directly behind the elastic band.

07. Spray the bun with *Flip Turn Volumizing Spray*.

08. Use your fingers to gently expand the added volume.

09. Spray the finished style with *Gold Dust Shimmer Spray* for a festive glint.

10. Final look
